Functional Specification

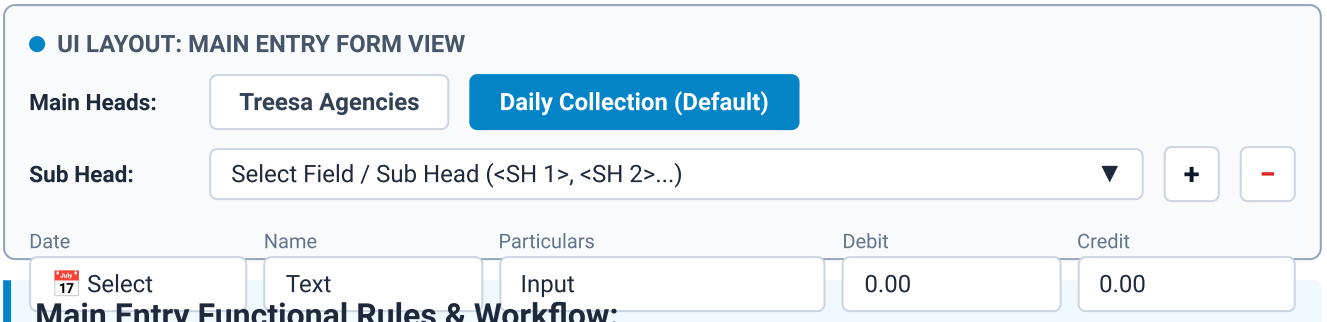

WINDOWS APPLICATION REQUIREMENTS & UI WORKFLOW

Doc Ref: CX-REQ-2026-v1.0

MAIN HEADS	DEFAULT MODE	SUB-HEADS
2 Categories (Treesa / Daily)	Daily Collection	Dynamic SH List (+ / - Modal)

1. MAIN ENTRY MODULE FLOW

The primary entry interface handles daily transaction inputs across specified business heads. Main Heads default to selection state upon initialization.

Main Entry Functional Rules & Workflow:

- **Head Selection:** Selecting "Treesa Agencies" opens Sub-Head selection (<SH 1>, <SH 2>, <SH 3>, etc.).
- **Sub-Head Management:** Clicking `+` opens a modal/popup to add new SH items. Clicking `-` deletes/removes existing non-mandatory Sub-Heads.
- **Permanent/Fixed Fields:** Standard transactional inputs (Date, Name, Particulars, Debit, Credit) display beneath Sub-Head selections. Date picker accepts standard format entries.
- **Submit Validation:** The `Submit` button remains **DISABLED** if any mandatory field is missing/empty. It activates only upon complete form entry.
- **Default State:** "Daily Collection" is selected by default upon form load.

2. SUB-HEAD SETUP TABLE STRUCTURE

Configured Sub-Heads populate in system memory for transaction tagging across all collection categories.

Sub Head Key	Sub Head Label Name	Control Type	Status
<SH 1>	Primary Sub Head	Dropdown Option	Active
<SH 2>	Secondary Sub Head	Dropdown Option	Active
<SH 3>	Auxiliary Sub Head	Dropdown Option	Active
<SH 4>	Special Collection	Dropdown Option	Active

3. EXPENSE REPORT & VIEW MODULE

The Expense Report module aggregates submitted ledger items, offering filtering by main heads and direct inline record modifications.

UI LAYOUT: EXPENSE REPORT TABLE & FILTER BAR

Main Head Filter: [MH 1 (Treesa)] [MH 2 (Daily)] **Sub-Head:** [All Sub Heads ▼] [Filter Report]

Date	Name	Particulars	Debit (₹)	Credit (₹)	Actions
24/10/2026	Vendor Account	Operational Expense	2,500.00	0.00	✏️ Edit 🗑️ Delete
24/10/2026	Daily Counter	Cash Receivables	0.00	14,200.00	✏️ Edit 🗑️ Delete

Expense Report Table Functional Requirements:

- **Data Display:** Table loads and displays entries previously submitted from the main input page.
- **Totals Calculation:** Bottom sum row automatically displays total Debit and Credit values.
- **Words Conversion:** If Debit or Credit amount exceeds **₹0**, the total sum is automatically generated and displayed in words below the table.
- **Inline Record Editing:** Clicking ✏️ **Pencil Icon** converts row values into editable text/input fields. The pencil icon transforms into a ✔ **Checkmark Icon** to save modifications.
- **Row Deletion Confirmation:** Clicking 🗑️ **Delete Icon** triggers a modal/popup: *"Are you sure you want to delete this row?"*. Deletion proceeds only after explicit user confirmation.

4. FIELD RULES & DEFAULT STATE MATRIX

Summary matrix detailing field accessibility, defaults, and validation states across application screens.

Field / Control	Default Value	Validation Rule	Action / Behavior
Main Head	"Daily" selected	Mandatory	Toggles sub-head choices
Sub Head Field	First Available SH	Disabled if Daily active	Modifiable via + / - popups
Submit Button	Disabled State	All fields required	Enables on full form completion
Action Column	Pencil & Delete Icons	Inline Edit Enabled	Pencil flips to ✔ on click

Special Condition Notice: When "Daily" main head is selected by default, the Sub-Head selection dropdown remains disabled unless an explicit sub-head allocation is enabled for that flow.
